PROFESSIONAL SUMMARY

Adaptable and motivated junior full-stack developer with a background in construction project coordination and AutoCAD drafting, now fully focused on building modern web applications. My transition into tech reflects a strong commitment to continuous learning and growth. I trained in full-stack development through the REDI School Full-Stack Circle and Udemy's Web Development Bootcamp.

Recently led the development and demo of a Pinterest clone using the PERN stack (PostgreSQL, Express, React, Node.js) with Prisma ORM and MVC architecture. Currently collaborating on projects using FastAPI, Next.js, and PostgreSQL, including an upcoming eCommerce platform. I bring strong problem-solving skills, cross-functional collaboration experience, and a passion for clean, scalable code. Eager to contribute to a dynamic team as a junior developer and grow through hands-on experience.
